# Teaching Notes

- This module is designed for novice learners and provides a fun way to learn the names of farm animals through the “Old Mr. Wang” song. Many students will already know the Old MacDonald Song in English.
- Before beginning, build interest by asking students if they know the Old MacDonald Song. Ask them if they know what sounds different farm animals make.
- On slide 2, review the names of the farm animals that have speech bubbles and discuss what the sound the animal makes in English and in Mandarin. Explain that in Mandarin the sounds are different. For counting practice you can count the number of animals on the farm. You can also ask how the animals are feeling. Happy? Sleepy?
- On slide 3-13 sing the song, with one verse for each animal. Note that the full lyrics are not written out on slide 3-4, so know them in advance. (The full lyrics are on slide 15 and 16.) Let the student know that the words have changed a bit from the English version (Old MacDonald is not a Chinese name, so the farmer becomes Mr. Wang.) Make it fun by enthusiastically singing the sound that each animal makes. While you are singing, you can pause briefly to let the student say the animal name or the sound it makes. On the last slide, the rabbit makes no sound, so it is a funny way to end the song.
- Remember that the first time the student hears the song they will be unlikely to be able to sing it right away. Encourage them to sing the parts they know – especially the animal names and sounds. (You can point to them or pause when it is time for the animal name.) As they hear the verses repeated singing the song will become easier.
- Slide 14: Review all the animals's name and the sounds again. Ask if the student had a farm, what kind of animal would they want?
- Vocabulary: horse, sheep, cow, dog, pig, chicken, rabbit, farm
